

Press Release - FOR IMMEDIATE RELEASE

**Star Knowledge expands SharePoint Development & Support Services Group with Introduction of SharePoint 2010**

**Pompano Beach, Florida – Monday, September 6, 2010** – Star Knowledge Technology Alliance Team LLC a global software and solution services provider today announced the expansion of their SharePoint Services and Solution Group with the introduction of SharePoint 2010. Star Knowledge works with organizations to assist them in connecting people, information, processes, and systems through Microsoft Office SharePoint solutions.

Star Knowledge is a leading Microsoft Gold Partner with a seasoned team of Microsoft certified SharePoint business and technical consultants who provide SharePoint analysis, design, development and support services to clients globally. "With the 2010 release, SharePoint has evolved into the foremost productivity-centric platform in the marketplace", said Kevin M. O'Sullivan Chairman at Star Knowledge. - "Given the pervasive use of Microsoft Office at the desktop, it's not unexpected to see SharePoint emerging as the productivity tool of choice and a best practice for successful companies."

SharePoint 2010 is the business collaboration platform that enables organizations to connect and empower people through formal and informal business communities and processes, within the enterprise and beyond, and to manage content throughout the information lifecycle. Whether deployed on-premises or as hosted services, SharePoint's rich and integrated capabilities are enhanced by search technologies and enable users to rapidly respond to changing business needs by enabling and supporting knowledge-driven decisions and deploying customized solutions quickly and securely. "The consolidation of collaboration solutions onto SharePoint 2010 makes it possible for companies to significantly lower their costs by reducing training and maintenance expenses and increasing IT productivity, all within a governable and compliant platform" stated Kalpesh V. Mehta, President and CEO of Star Knowledge.

Star-Knowledge has extensive competencies and experience in developing, deploying and installing SharePoint applications in a variety of industries and functional areas.

A key Star Knowledge service is assisting clients plan and migrate Lotus Notes and applications to the SharePoint environment. From the beginning to the end, Star Knowledge offer clients a total team of business and technical resources to successfully design, develop, implement and provide post development support of SharePoint within the enterprise.
